

Election Survey

Austrian Parliamentary Election 2019

Martina Zandonella & Flooh Perlot
September 29, 2019

Methodology

Project consortium commissioned by Austrian Broadcasting Company (ORF)

- SORA Institute for Social Research and Consulting: www.sora.at
- ISA Institut für Strategieanalysen: www.strategieanalysen.at

Survey

- **Population:** eligible voters
- **Sampling procedure:** stratified random sampling
- **Survey method:** Telephone interviews (CATI), carried out by IPR
- **Survey period:** 25.-29. September 2019

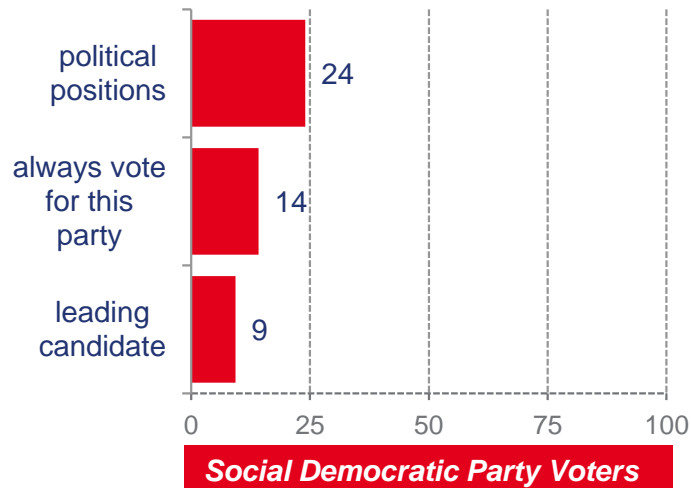

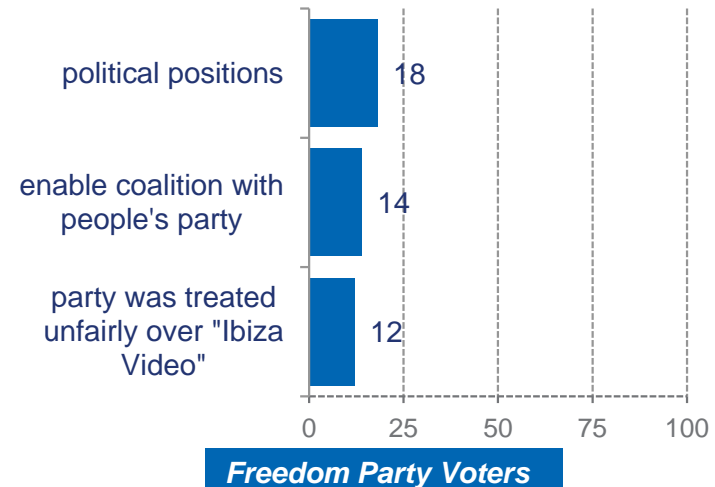

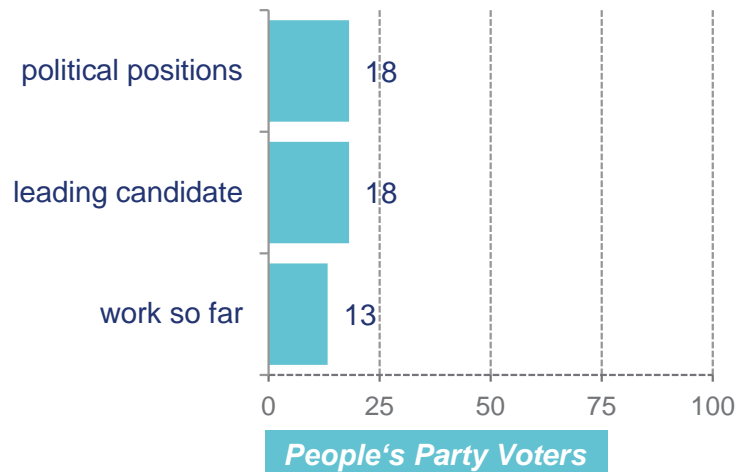

Data

- **Sample:** n=1.226 respondents, n=1.088 declared voters
 - **Weighting:** (representative for eligible voters): sex, age, formal education, occupational status, election night forecast from 18.15
 - **Confidence interval:**
 - for n=1.226 (all respondents) max. +/- 2,8%
 - for n=1.088 (voters) max. +/- 3,0%
- Subgroups have broader confidence intervals, dependent on their group size.

Top 3 voting motives

“What the Ibiza video showed is typical of...?”

Source: ORF/SORA/ISA

„Democracy may have it's problems but it is better than any other form of government“

Source: ORF/SORA/ISA

“It is very important for democracy that media reveal things like the ‘Ibiza video’, even if they use questionable sources.”
